

Bio: A Santa Barbara native, I began my career working in radio and television hosting fundraisers, parades, festivals, new product launches and a morning radio show. Always looking for new challenges, I moved to New York and worked in radio and voiceover before moving to Providence, RI to continue my radio career. My voiceover work led me to a position with the Boston Bruins and for two seasons I was the in-house PA announcer. Now I'm fortunate to call south Florida my home and continue to work extensively in voiceover, broadcast and television.

Career highlights
